

# 47th Annual International Conference

**Coping with Stress in Today's World:  
Solutions for Anxiety, Depression, and Burnout**

**A Virtual Event: October 21-22, 2022**

# SCHEDULE:

All times shown in Eastern Time (US & Canada)

## Friday, October 21, 2022

Time	Session
9:00am - 9:15am	Welcome
9:15am - 10:45am	Skills, Tips and Tools for Somatic Applications in School-Aged Children  Jenna Prada, MEd Alexandra Linardakis, RN, BCN
10:45am - 11:00am	Break
11:00am - 12:30pm	Regulating the Nervous System with Somatic Experiencing®  Peter Levine, PhD
12:30pm - 1:30pm	Lunch
1:30pm - 3:00pm	Applications of the Polyvagal  Stephen Porges, PhD
3:00pm - 4:00pm	Can Neurofeedback be used to heal Legacy Burdens such as racism, homophobia/transphobia, classism, and individualism?  Deran Young, LCSW
4:00pm - 5:00pm	Optional Vendor Rooms

## Saturday, October 22, 2022

Time	Session
9:00am - 9:15am	Introduction
9:15am - 10:45am	Biofeedback and Neurofeedback in Schools – Past, Present, & Future  Harry Campbell, BCB, BCN, BCH Mary Jo Sabo, PhD
10:45am - 11:00am	Break
11:00am - 12:30pm	Is EMF (WIFI) Messing Up Your Clients' Sleep?  Robert Turner, MD Michael Cohen
12:30pm - 1:30pm	Lunch
1:30pm - 3:00pm	Awareness and Control with Biofeedback to Improve Health in Schools and at Home  Erik Peper, PhD
3:00pm - 4:00pm	Optional Vendor Rooms

## Speaker Biographies

### Jenna Prada

Jenna Prada, MEd is a career educator with two masters in education and experience across diverse settings. As a certified classroom teacher and school building leader with experience overseeing the behavioral and academic interventions in grades six through twelve, Jenna understands the practical challenges that schools need to overcome when supporting diverse learners. In addition, as the founder and director of the executive functioning program at an elite private tutoring company, she has seen hundreds of IEPs, 504s and educational evaluations across dozens of districts and more than a handful of states for students from elementary school through college.

### Alexandra Linardakis

Alexandra Linardakis, RN, BCN works as a neurotherapist in upstate New York. She is the founder and director of Tetraneuronet. The services Tetraneuronet provides include qEEG brainwave recording and analysis, computerized neurocognitive assessments, a variety of somatic therapies, low-level stimulation modalities and biofeedback training.

### Peter A. Levine

Peter A. Levine, PhD, is the developer of Somatic Experiencing™, a naturalistic and neurobiological approach to healing trauma, which he has developed over the past 50 years. He is the Founder of the Somatic Experiencing Trauma Institute: Foundation for Human Enrichment, a world-wide organization committed to training professionals in somatic based trauma care. Currently he is the President of the Ergos Institute of Somatic Education, dedicated to Community Outreach and Post-Advanced Somatic Experiencing® Training. His work has been taught to over 30,000 therapists in over 42 countries.

### Stephen W. Porges

Stephen W. Porges, PhD is a Distinguished University Scientist at Indiana University where he is the founding director of the Traumatic Stress Research Consortium. In 1994 he proposed the Polyvagal Theory, a theory that links the evolution of the mammalian autonomic nervous system to social behavior and emphasizes the importance of physiological state in the expression of behavioral problems and psychiatric disorders. The theory is leading to innovative treatments based on insights into the mechanisms mediating symptoms observed in several behavioral, psychiatric, and physical disorders. Dr. Porges is Professor of Psychiatry at the University of North Carolina, and Professor Emeritus at both the University of Illinois at Chicago and the University of Maryland. He served as president of the Society for Psychophysiological Research and the Federation of Associations in Behavioral & Brain Sciences and is a former recipient of a National Institute of Mental Health Research Scientist Development Award.

## Deran Young

Deran Young, LCSW is a licensed therapist specializing in racial trauma and legacy burdens. She is also a Co-Author of the New York Times Best Seller, *You Are Your Best Thing*, a retired military officer, & founder of Black Therapists Rock. Black Therapists Rock is a non profit organization with a network of over 30,000 mental health professionals committed to reducing the psychological impact of systemic oppression and intergenerational trauma. She obtained her social work degree from University of Texas, where she studied abroad in Ghana, West Africa for two semesters creating a high school counseling center for under-resourced students. Deran has visited over 37 different countries and her clinical experience spans across four different continents. Her passion for culture and people has led her to become a highly sought after diversity and inclusion consultant working with companies like BBERG, Facebook, Linked In, and YWCA. She resides in the Washington DC area with her 10 year old son.

## Harry Campbell

Harry Campbell, BCB, BCN, BCH was introduced to biofeedback in 1984 by Adam Crane at a career day at Ossining High School in Westchester County, NY. He worked with Adam in his biofeedback equipment and training company for over 20 years until Adam sold him the company. He has provided biofeedback and neurofeedback for anxiety, headaches, pain, insomnia, and ADHD in several private practices. He served as a trainer and supervisor in the Yonkers, NY public school Neurofeedback Project with Mary Jo Sabo, Ph.D. Harry has served two terms as president of the Northeast Regional Biofeedback Society and has trained and presented for many colleges, universities, veteran and military hospitals and medical centers throughout the country. He continues to train healthcare professionals in biofeedback and neurofeedback for certification by the Biofeedback Certification International Alliance (BCIA) and provides equipment and consulting support.

## Mary Jo Sabo

Mary Jo Sabo, PhD has been in the field of Biofeedback/Neurofeedback since the 1980s. She has a Wellness Center in Suffern, New York and has been on the staff of Biofeedback Resources International since the 1990's. In the 1990's she organized one of the largest "in-school" projects in Yonkers, New York utilizing Neurofeedback. Her research is published in the *Journal of Neurofeedback*. Dr. Sabo is BCIA certified in Neurofeedback and teaches BCIA certification courses.

Dr. Sabo conducts workshops and seminars on Neurofeedback and mentors neurofeedback practitioners. She has several psychologists, social workers and hypnotherapists on staff at The Rockland Health and Wellness Center located at 12 North Airmont Road in Suffern, New York.

In 2008 Dr. Sabo started All About Neurofeedback in LinkedIn so other practitioners could communicate Biofeedback/Neurofeedback information to one another.

## Robert Turner

Robert Turner, MD is owner of Network Neurology Health LLC, an integrative neuroscience consulting practice based out of Charleston SC, providing consultative mentoring promoting whole-person brain and physiologic health, EEG & QEEG interpretation, and inpatient pediatric neurology hospitalist consultative work in several states. From 2013-2020, he owned Network Neurology LLC, a busy clinical neurology/neuromodulation practice performing neurological evaluations, treatments, and QEEG-guided non-invasive neurofeedback. As a neuroscientist with more than 30 years' experience, Dr Turner is a clinician trained in EEG, clinical neurophysiology and electrodiagnostic medicine, child and adult neurology, epilepsy, neuromuscular diseases, neurodevelopmental medicine, as well as pediatrics, clinical research, biostatistics, and epidemiology.

## Michael Cohen

Michael Cohen is the Director and Chief of Neurotechnology at The Center for Brain Training in Jupiter, Florida. He is the author of "Neurofeedback 101: Rewiring the Brain for ADHD, Anxiety, Depression and Beyond (without medication)". Since 1996, he has devoted his life to learning about, using, teaching, and perfecting the art and science of neurofeedback and biofeedback. In the process of helping thousands of adults and children, he's become one of the most prominent experts in the U.S. on the topic. Michael offers a wide array of the best technology and training approaches in the profession. Besides providing multiple biofeedback and neurofeedback modalities, he offers several types of the latest brain maps.

## Erik Peper

Erik Peper, PhD is an international authority on biofeedback and self-regulation and professor of Holistic Health Studies at San Francisco State University. He is President of the Biofeedback Foundation of Europe and past President of the AAPB. He has a biofeedback practice at Biofeedback Health ([www.biofeedbackhealth.org](http://www.biofeedbackhealth.org)). In 2013 was received the AAPB's Biofeedback Distinguished Scientist Award in recognition of outstanding career & scientific contributions. He is an author of numerous articles and books such as Make Health Happen, Fighting Cancer-A Nontoxic Approach to Treatment, Healthy Computing with Muscle Biofeedback, and Biofeedback Mastery. He is co-author of the newly published book, TechStress: How Technology is Hijacking Our Lives, Strategies for Coping, and Pragmatic Ergonomics. He publishes the blog, the peper perspective-ideas on illness, health and well-being ([www.peperperspective.com](http://www.peperperspective.com)). His research interests focus on self-healing strategies to optimize health, the effects of posture and respiration, and learning self-mastery with biofeedback.

## Our Sponsors

### BeeMedic

BEE Systems Inc. is a wholly owned subsidiary of BEE Group AG. Our headquarters is in Beaverton, OR and we have been established in the US since 2012. We sell cutting edge technologies to licensed mental health care providers all over the American continent. Headquartered in Switzerland, BEE Group manages subsidiaries in Switzerland (EMEA), Germany (EU), the USA, Great Britain (UK), with emerging markets in the Pacific, all under the name of BEE Medic. BEE Group AG is a truly international company that operates worldwide. The BEE Group of companies focuses on the development, manufacture and marketing of neurofeedback systems with product groups for the ambulatory and clinical sector as well as systems for EEG/ERP diagnostics. Our products aim to improve the self-regulating ability of the brain. We are specialists in EEG-based neurotechnology and signal processing.

### Biofeedback Resources International

Since 1971, thousands of professionals and organizations have chosen our team for training, equipment and technical support. Word of mouth from satisfied clients has made us international, full service leaders.

HTS\* instructors are among the most experienced and successful instructor / practitioners in biofeedback. Likewise, many of the professionals we have trained over the past thirty four years are today among the most successful biofeedback practitioners, nationally as well as internationally. Our FREE TRAINING and FREE ONLINE TRAINING programs are unmatched in biofeedback.

---

## BioSource Software

BioSource has developed educational resources for biofeedback, heart rate variability biofeedback, neurofeedback, and qEEG professionals since 1978. Our products were developed by professional educators who mentor and prepare professionals for the BCIA and IQCB exams. BioSource bases our courses and testing services on the latest research findings and BCIA's Blueprints of Knowledge and Reading Lists. BioSource products deliver high value at affordable prices. We are a trusted government vendor listed with Dun & Bradstreet and the System for Award Management. We proudly support our military with discounted prices for current military, including the Veterans Administration and the civilian staff who support them. We also offer international discounts.

---

## Bio-Medical

Bio-Medical Instruments Incorporated carries a wide variety of biofeedback and neurofeedback equipment and supplies. We carry a full line of EEG, qEEG, EMG, temperature, GSR and heart-rate products from major manufacturers. When you buy from Bio-Medical Instruments, you receive technical support from both us and the manufacturer.

Founded in 1972, we have decades of experience working with physiological equipment and supplies. We offer service and repair for many biofeedback and neurofeedback machines. Our knowledgeable staff has the expertise to help you keep your system running.

---

## Brainmaster Technologies

Founded in 1995, BrainMaster Technologies, Inc., provides innovative, high-quality, affordable electroencephalographic (EEG) systems for assessment, treatment, research, and education for both clinical and nonclinical populations. We conduct research, development, production, education, and training for all phases of eeg-based assessment and neuromodulation techniques. We maintain the highest professional standards including worldwide medical registration, patents, and scientific and clinical publications. Our technology incorporates our strengths in hardware, software, communications, education, the internet, and the ever-expanding virtual world. In collaboration with our clients, colleagues, and partners, we are committed to changing the face of mental and brain health and human potential.

---

## Dr. Roseann

Dr. Roseann is a mental health trailblazer, founder of The Global Institute of Children's Mental Health and Dr. Roseann, LLC who is, "Changing the way we view and treat children's mental health". FORBES magazine called her, "A thought leader in children's mental health". With her trademarked method, BrainBehaviorReset™, has helped thousands address the most challenging conditions such as ADHD, executive functioning, anxiety, OCD, mood, Lyme, and PANS/PANDAS using science-backed holistic therapies. She is the author of the first ever book on teletherapy activities for child and adolescent therapists, "Teletherapy Toolkit™" and It's Gonna be OK!™ and gives parents step-by-step solutions for their struggling kids with her books, Raising Successful Kids Community and remote neurofeedback program.

---

## EEGer

EEGer software was designed with the clinician in mind. Easy to learn and easy to use, it is acclaimed for its power and versatility. On the fly, the clinician can use the therapist “wave” display to fine tune the training process, adjusting goals and frequencies during the training. These seamless adjustments are transparent to the client, allowing the therapist to shape individual training without interrupting the session. See the tabs below for more information.

---

## Jeffrey A. Carmen, Ph.D.

Jeffrey A Carmen is a licensed psychologist and inventor of the PIR HEG, which combines the classic principles of hemoencephalography with a technique known as thermoscopy.

JEFFREY A. CARMEN, PH.D.  
INVENTOR OF PIR HEG

---

## Lenyosys

A leader in bioregulation technology and devices, Lenyosys is a division of Nestatek Inc., headquartered in Fort Lauderdale, FL. Lenyosys provides advanced Bioregulation Therapy (BRT) devices and solutions to professional practitioners in the medical, wellness, sports, enterprise, educational and veterinarian fields, as well as home-use products to the general public.

A unique, innovative and holistic approach to health and wellness, BRT combines state-of-the-art biofeedback and advanced pulsed electromagnetic field signaling (PEMF) to help improve biological communications at the cellular level – ultimately helping the body to restore natural regulation and healing activities.

**LENYOSYS™**  
*in tune with nature™*

---

## NADD

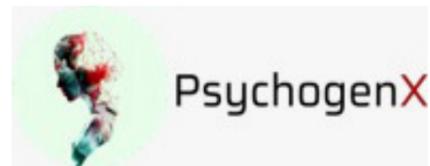

NADD's mission is to promote leadership in the expansion of knowledge, training, policy, and advocacy for mental health practices that promote a quality life for individuals with dual diagnosis (IDD/MI) in their communities.

---

## PsychogenX

PsychogenX is a biopsych client assessment platform for therapists to help you evaluate your clients real-life state by objectively assessing baseline emotional regulation and stress coping-capacity. Using Resting-HRV (rather than HRV Biofeedback), PsychogenX helps you identify which clients are in need of support at the earliest stage before crisis, and also helps assess your therapeutic intervention's long-term daily impact outside of in-session activities.

---

## Sadar Psychological

For Sadar Psychological, the most important thing is the quality of life and functionality of our patients. We use scientifically based methods to measure, analyze and understand your brain's functioning, to help develop a plan to maximize treatments and lifestyle changes to help you feel and function your best.

---

## Thought Technology

Founded in 1975, Thought Technology is the world's leading biofeedback, neurofeedback, and psychophysiological instrument manufacturer. Our instrumentation not only monitors and records a wide variety of physiological and mechanical signals but also analyzes and provides feedback in real-time, through a variety of auditory and visual means, to promote self-regulation and conditioning.

Our equipment is used as an essential part of many therapeutic treatments and clinical assessment protocols to treat stress-related disorders as well as to provide treatment for incontinence and muscle rehabilitation, including sEMG-triggered stimulation. On the non-medical side, they are also used in ergonomics, sports, peak performance, and educational applications – wherever accurate and sensitive psychophysiological monitoring and biofeedback are needed.

---

## WellBeing CNY Learning and Collaboration Network

WellBeing CNY Learning and Collaboration Network was created to advance the understanding of Neurofeedback and technology in mental health practice. At WellBeing CNY, we provide pIR HEG Neurofeedback to adults with stress, trauma, anxiety, depression, and addictions. We integrate brain training and therapeutic support in our one of a kind approach. We collect data on our outcomes and use this knowledge to advance the field.

---

**NRBS Board Members**
**Mitchell M. Sadar (President)**

Mitchell Sadar, PhD, BCN, BCB-HRV is a licensed psychologist who was the director of a Pennsylvania Correctional Institution's inpatient program for over 15 years. In 1999 he was trained in neurofeedback and tried to bring this modality to the correctional population, but his attempts were not accepted by the Department of Corrections. He then resolved to dedicate his work to biofeedback and developed his private practice. Since 2015 he has been the president of the Northeast Region Biofeedback Society. His background in neuropsychology readily lent itself to learning how the EEG can facilitate neurofeedback training. In 2018, along with his practitioner wife, Angelika Sadar, he was invited to be part of BrainARC Switzerland and began developing evaluations and protocols based on the research of HBImed, Switzerland. Since that time, he has focused on developing assessments that include an analysis of EEG and ERPs to help to guide biofeedback/ neurofeedback protocols but also include recommendations regarding psychotherapy and lifestyle changes.

email: [mitch@sadarpsych.com](mailto:mitch@sadarpsych.com)  
 website: <http://www.sadarpsych.com>

**Angelika Sadar (Executive Director)**

Angelika is a licensed psychologist who is board certified in neurofeedback and heart rate variability and is a BCIA approved mentor in neurofeedback. She has been in private practice in the greater Philadelphia area since 1985. Her work over the years has involved all age groups and clinical presentations.

She is a treatment coordinator at Sadar Psychological and is a nationally recognized speaker providing education and offering training to other professionals in neurofeedback, biofeedback, and hypnosis. In 2018 she was invited to be part of BrainARC Switzerland and began developing evaluations protocols based on the research of HBImed, Switzerland. Presently, her clinical focus is on patients with complex/comorbid presentations and consulting with other psychologists, medical practitioners and other clinicians regarding EEG, neurofeedback and practice development. She is the executive director of the Northeast Region Biofeedback Society and a board member at large of The Association of Applied Psychophysiology and Biofeedback.

email: [angelika@sadarpsych.com](mailto:angelika@sadarpsych.com)  
 website: <https://www.sadarpsych.com>

**Thomas Fink (Treasurer)**

Dr. Thomas E. Fink is a Pennsylvania-licensed psychologist with over 40 years of experience working in the mental health field with diverse clinical populations. He has been trained in research and experimental approaches to learning and cognitive psychology at Temple University, Philadelphia, PA, and has received clinical training and supervision applying psychological techniques in a range of settings, from mental hospitals and community mental health centers to general and specialized outpatient settings.

Dr. Fink has directed an inpatient behavioral modification program; consulted with the medical and psychology staff on complex patients at state mental hospitals, as well as in community settings; and managed outpatient rehabilitation and pain management programs. His most recent area of practice, from which he's partially retired, has involved providing services in an outpatient psychological service, Acorn Health Associates, P.C., that specialized in rehabilitation psychology, pain management, and the application of EEG Biofeedback techniques to a range of psychological disorders. He helped develop one of the first home-based neurofeedback systems, MindReflector.

He remains interested in theoretical psychology and has presented workshops over the past 20 years critically reviewing the incorrect assumptions of a medicalized American mental health service delivery system. Current research interests involve understanding the language used to talk about mental illness and models of therapeutic interventions.

Email: [drtomfink@gmail.com](mailto:drtomfink@gmail.com)  
 website: <https://www.mindreflector.com>

**Kristin Mitchum (Executive Secretary)**

Kristin works at Sadar Psychological and supports the team by maintaining a few roles. Her role as community liaison allows her to work with the community to help assess their needs and to provide educational support to BCIA course students. Her background in event planning allows her to understand the needs of patients and to make changes in Sadar Psychological's structure so that patients can get the most of their experience.

Kristin is also a BCIA certified Neurofeedback technician, working with EEGer, BEELab and HEG. She enjoys the one on one time with clients, and helping them achieve their training goals.

**Alexandra Linardakis (Member At Large)**

Alexandra Linardakis, RN BSN BCN works as a neurotherapist in upstate New York. She is the founder and director of Tetraneuronet. Tetraneuronet is a clinic that collaborates with psychiatrists, neurologists and other health care practitioners. The services Tetraneuronet provides include qEEG brainwave recording and neurocognitive assessments, low level stimulation modalities and biofeedback.

Tetraneuronet will soon have a mobile biofeedback clinic. The mission of this clinic is to provide services to clients that have central nervous system dysregulation that do not have access to transportation or services that would support self-regulation and care.

Alexandra works helping to alleviate symptoms with clients who have suffered from concussions, strokes, and trauma. She also works with clients with learning disabilities, cognitive impairment, neurodegenerative conditions and chronic inflammatory conditions to improve their quality of life.

email: [lexi@tetraneuronet.com](mailto:lexi@tetraneuronet.com)

**Roseann Capanna-Hodge (Member At Large)**

Dr. Roseann is a trailblazing Psychologist, Pediatric Mental Health Expert and the founder and director of The Global Institute of Children's Mental Health and Dr. Roseann and Associates. Her Connecticut-based center has helped thousands of children and adults reverse the most challenging conditions such as ADHD, Autism, anxiety, depression, concussion, learning disability, Lyme Disease, and PANS/PANDAS. Dr. Roseann treats these conditions using proven holistic therapies such as neurofeedback, biofeedback, psychotherapy, and nutrition using her trademarked intensive two-week intensive 360 Reboot™ Program. Her mission is to teach parents how to reduce and reverse their child's symptoms using proven natural therapies and her book, "It's Gonna be OK!™", and course, The Get Unstuck Program™: The Step by Step Way to Change Your Child's Mental Health, give parents the tools for lasting change. She is also the author of Teletherapy Toolkit™: Therapist Handbook for Treating Children and Teens and co-author of the best selling book "Brain Under Attack: A Resource For Parents and Caregivers of Children With PANS, PANDAS, and Autoimmune Encephalopathy". She has been featured on dozens of media outlets such as The Mel Robbins Show, Fox News, CBS, NBC, PIX11 NYC, Cheddar TV, FORBES, USA Today, Yahoo News, WebMD, Business Insider, PARENTS, The Week, and The New York Times.

Dr. Roseann is a Connecticut Certified School Psychologist, a Licensed Professional Counselor (LPC), Certified Integrative Medicine Mental Health Provider (CMHIMP), and a Board Certified Neurofeedback Provider (BCN). Dr. Roseann serves on the boards of the Northeast Regional Biofeedback Society and is a Lyme Connection Task Force Professional Advisor.

email: [drroseann@hotmail.com](mailto:drroseann@hotmail.com)  
 website: <https://www.drroseann.com>

**Paula Pugliese (Member At Large)**

Paula Pugliese owns and operates Mind Vision in Hawley, PA. She is a registered nurse who is board certified in neurofeedback and biofeedback and is a QEEG certified diplomate. She is also a HeartMath certified trainer.

Paula began her nursing career working in a Shock/Trauma unit in a tertiary care level one trauma center. She has been a neurofeedback provider since 2014. She has worked with children and adult clients with anxiety and depression, traumatic brain injury, addiction, ADD and ADHD, spectrum disorder and PTSD. She is a member of Homecoming for Veterans which provides free neurofeedback services for those who served in our armed forces. Paula also works for a residential treatment facility for those seeking recovery from chemical addiction.

email: [paula@mindvisionpa.net](mailto:paula@mindvisionpa.net)  
 website: <https://mindvisionpa.net>

**Saul Rosenthal (Member At Large)**

Saul Rosenthal, PhD, BFB, BCN, BCB-HRV is a developmental and clinical psychologist in the Boston area, specializing in complex and chronic health conditions. His expertise lies in integrative health care, primarily drawing from cognitive behavioral therapy, mindfulness, biofeedback and neurofeedback. He has worked in a variety of medical and community health settings, including serving as Training Director and Biofeedback Coordinator of Behavioral Medicine at the Cambridge Health Alliance. He also oversaw the biofeedback program at the Edith Nourse Rogers Veterans Medical Center as part of the Primary Care Behavioral Health service. Dr. Rosenthal serves on the Board of Directors for AAPB and NRBS. He is an editor and contributor for the upcoming Fourth Edition of Evidence-Based Practice in Biofeedback and Neurofeedback, authoring the chapter on chronic pain. He presents to a wide variety of audiences on topics related to biofeedback and applied psychophysiology, and is involved in training, supervision and biofeedback mentoring. Dr. Rosenthal is also the host of the podcast, Life in the Time of Corona.

**Beth Barol (Member At Large)**

Dr. Barol has dedicated the past 44 years to serving and supporting people with Intellectual and Developmental Disability (IDD) who also have challenging behaviors and co-occurring mental health issues. She started out as a direct supports worker and live-in “houseparent” and has served a community-based project director, residential program director, facility director and clinician.

She has been working with Biographical timelines for over 30 years, and trained trainers in the process in Pennsylvania when she worked as the Clinical Director of the State-wide Training and Technical Assistance initiative, and through her consultation and training overseas.

Her areas of special interest include: Positive Approaches with people with IDD and challenging behaviors including co-occurring mental illness, the effects of trauma, and neurological differences. She works on the behalf of these individuals through her clinical roles as well as through her experience in Group Process, Conflict Resolution, Partnership Building, Leadership Development, System Change, and Management. She is trained in EMDR, Biofeedback, and Neurofeedback and is integrating these modalities in her current teaching and clinical work.

She is currently an Associate Professor at Widener University’s Center for Social Work Education and Associate Clinical Director of the Clinical Services for Vulnerable Adults clinic. She is also the co-Director of the Capacity Building Institute for Pennsylvania. Dr. Barol consults regularly in the U.S. and internationally.
